

Your Income Tax Reporting Guide

This guide is intended to help you understand the different types of tax reporting documentation you may receive and provide you with expected mailing dates for each form. If you have questions or need more information, please speak with your advisor.

Your Income Tax Reporting Guide

You may wish to keep this brochure with your tax files for future reference.

Depending on the types of investments you have, you may receive individual tax slips from Manulife Securities and directly from other issuers. For a list of tax slips, see reverse side of this guide.

While it's best to make sure you've received all your tax slips in time for filing your tax return in accordance with the Canada Revenue Agency (CRA) April tax filing deadline, sometimes tax slips need to be amended or arrive after you've already filed your tax return. If that's the case, you need to file a T1-ADJ form with the CRA.

For detailed, personalized information on completing your tax return, we recommend you contact your personal tax advisor.

RRSP contribution receipts

Tax receipts for contributions made during a given tax reporting year are issued separately from receipts for contributions made during the first 60 days of the next year.

Registered plan income receipts are also issued separately.

Trust Units, Limited Partnerships and Mutual Fund Shares

Tax information for trust units and limited partnerships are provided by each issuer to Manulife Securities for reporting purposes on a staggered schedule. As a result, there are times when we'll need to mail you a separate tax slip for each

investment. It's important to ensure you've received all the slips you're expecting before you file your tax return.

Our reporting requirements

Manulife Securities is required to file information on the various tax slips with the Canada Revenue Agency (CRA), Revenu Québec (RQ) for Québec residents and the Internal Revenue Service (IRS) for U.S. Persons.

Québec Residents

Revenu Québec (RQ) generally uses Relevé (RL) slips to process tax returns for Québec residents. RL slips are listed on the reverse side of this guide along with their CRA equivalents.

To reduce the number of slips received by Québec resident account holders, Revenu Québec (RQ) has collaborated with the Canada Revenue Agency and introduced a new combined T5008/RL-18 slip for Québec residents only.

Estate Tax receipts

Deceased Registered Accounts - T4RSP/T4RIF/NR4/T4A/60L receipts (qualified beneficiary), can be issued in the name of the deceased, estate, or beneficiary as appropriate to report transactions that occurred while settling or transferring such an account.

U.S. Persons

U.S. residents and U.S. citizens (resident in Canada or countries other than the U.S.) may receive various IRS 1099 tax slips as indicated on the reverse of this brochure.

Manulife Securities Incorporated

Residency	Tax Slip/Summary	Issued by	Description	Expected mailing dates
